ICSSE 2026

Aomori City
Japan

International Conference on System Science and Engineering

Venue: Link Station Hall Aomori, Japan
Hosted by National Ilan University, Taiwan

青森県

AOMORI

The International Conference on System Science and Engineering 2026 (ICSSE 2026) will be held at Link Station Hall Aomori, in Aomori, Japan, from August 9 to August 12, 2026.

This premier international forum brings together researchers, engineers, and practitioners from around the globe to share the latest advances in system design, theoretical developments, and practical applications. ICSSE 2026 also aims to foster meaningful exchange and collaboration between academia and industry. For paper submissions and more information, please visit the conference website as <https://ele.mcu.edu.tw/icsse2026/>

2026

Topics of interest include but are not limited to:

- Artificial Intelligence and Machine Learning
- Biomedical Engineering
- Communication, networking, and Broadcasting
- Components, Circuits, Devices and System
- Computational Intelligence Systems and Applications
- Consensus for large-scale Group Decision Making
- Data Management and Machine Learning
- Energy Management and Control Systems
- Evolutionary Computation and Optimization
- Fuzzy Systems, Soft Computing and Grey system Theory
- Image and speech processing, vision and multimedia
- Information and System Security
- Intelligent System in Healthcare and Medical Systems
- Intelligent and Learning Control of Nonlinear Systems: Theory and Applications
- Intelligent Control and Applications
- Intelligent Learning in Control Systems

- Intelligent Systems and Modeling
- Intelligent Systems in Autonomous Vehicles
- Intelligent Systems in Biometrics and Physiological Measurements
- IoT Mobile Edge Computing
- Multi-Objective Optimization
- Performance Analysis and Synthesis of Complex Systems
- PHM for Complex Systems
- Power Electronics
- Renewable Energy and Smart Grid
- Robotics and Control Systems
- Sensor and Signal Processing
- Smart Manufacturing/Industry 4.0 Systems
- Soft Computing Applications
- Software Engineering
- System Development, Control, and Optimization
- Theory, Method and Application of Conflict Decision

Submission Policies

IEEE Xplore Eligible Papers

Full papers (4–6 pages in IEEE conference format) will undergo peer review, be included in the official conference proceedings, and be submitted for possible inclusion in the IEEE Xplore Digital Library.

Proceedings-Only Papers

Short papers (1–2 pages) will be included in the official conference proceedings and are suitable for work-in-progress reports, preliminary findings, or novel ideas that may not yet be ready for full paper submission.

Selected high-quality papers may be invited for direct publication in a Special Issue of the International Journal of Fuzzy Systems (Impact Factor: 3.6). For more details, please refer to the Call for Papers for the special issue.
